

Professional Indemnity Cover

We value our customer feedback and use it to further improve our products and services.

We were delighted to receive these two testimonials about our Indemnity Insurance Policy for Pharmacists in General Practice:

“As an Assistant Director of a CCG and a pharmacist in General Practice, I understand that the need for indemnity that provides the appropriate cover at a reasonable price point is essential.

Having a cover that comprehensively offers protection to pharmacists like myself with a portfolio career is of paramount importance. With costs of cover from the traditional defence organisations on the rise and the conflicting advice and information from other providers,

MIAB stood out from the crowd with a clear and defined policy that gave me greater freedom within my diverse roles.

I have passionately promoted pharmacists in General Practice and the diversity of the role at practice levels. Hence the need for a bespoke cover for the myriad of roles pharmacists undertake in primary care. MIAB clearly understand the role of a Pharmacist in General Practice and the wider primary care and genuinely wanted to make sure that I had the most appropriate cover in place. The application process was simple and they were able to provide me with a bespoke quotation that was tailored to meet my needs.

I am now confident that I am appropriately covered in my role within the CCG as well as in General Practice.

All members of the PCPA are entitled to a discount on their policy through MIAB and I am very supportive of their offer. As a Vice-Chair of PCPA’s Practice Pharmacist Group, not only do I benefit from their resources, I also gain an additional support on my indemnity cover.”

***Rena Amin, Clinical Associate & Managing Partner, Hartland Way Surgery
Assistant Director, Medicines Management, NHS Greenwich CCG***

“General Practice pharmacy is a rewarding and diverse job with pharmacists and technicians providing a wide range of services and roles. I have been working in General Practice for over five years and during this period have developed a scope of practice including nursing home and domiciliary visits out of hours, undifferentiated diagnosis and independent telephone triage out of hours. As an NHS England pilot lead, senior pilot pharmacist, CPPE clinical mentor and as Chair of the PCPA Nursing Home Group, I am

aware of the anxiety caused to peers and colleagues by the lack of a ‘fit for purpose’ indemnity policy to comprehensively cover our expanding roles.

It had been very difficult to obtain indemnity cover for my activities at a satisfactory level until I was able to arrange my insurance with MIAB. I would recommend all general practice pharmacy professionals review their indemnity provision and consider carefully the available providers to ensure they have a policy that meets their needs and offers adequate cover. MIAB offer comprehensive cover encompassing all of my roles within a single policy, at a competitive price, without undue restrictions and overly onerous paperwork to complete. I am delighted that a discount is available to PCPA full members and pleased to recommend MIAB to general practice colleagues.”

***Dr Graham Stretch, Senior Pharmacist
Ealing GP Federation & PCPA Care Home Group Chair
RPS Clinical Pharmacist of the Year 2016***
